## (Rs in Lakhs) GRIEVANCE DISPOSAL

#### A. How the policy data needed for valuation is accessed?

Data used for valuation is extracted from the Policy administration system as at the last day of the valuation month using data extraction program. For any new product, a change request form (containing the data required for the new products) is provided to the IT function for inclusion of the new product in extraction program. User acceptance test (UAT) is carried on the data extracted from the modified program before using it for valuation. Valuation data files are provided to the actuarial function in CSV format.

#### B. How the valuation bases are supplied to the system?

Actuarial valuation software VIP itech is used to calculate actuarial liabilities. The assumptions are supplied to the system through excel file.

#### 1. Interest Rates (including Margin of Adverse Deviation)

vi) Unit Linked	75% - 144% of IALM 94-96	Not Applicable
vii) Health Insurance	Not Applicable	Not Applicable

#### 3. Expenses

Best estimate per policy maintenance expenses, claim expenses and investment expenses assumptions have been based on projected expenses when Insurer acquires a stable level of business. The best estimate assumptions are further increased by a MAD of 10% of best estimate.

An assumption of 5.5% p.a. for expense inflation was used for scheming future expenses.

#### 4. Bonus Rates

Company does not have any participating products.

#### 5. Policyholder's Reasonable Expectation

Company does not have any participating products.

#### 6. Taxation and Shareholder Transfers

Company does not have any participating business. For non-participating business, no assumption is required for future taxation and shareholder transfers for valuing the policyholder's liabilities.

#### 7. Basis of provisions for Incurred but Not Reported (IBNR)

Company was in very early stage of its operations and did not have any past claim experience to determine IBNR. However, company had kept additional reserve equal to one month risk charges for linked business. For traditional business, monthly mortality rate for an average age for the inforce portfolio was applied to the Face Amount at Issue to calculate IBNR.

### 8. Change in Valuation Methods or Bases

# LIFE INSURANCE

Following changes are there as compared to last quarter:

- Valuation interest rate has decreased for Unit linked products from 6.4% to 5.5%.
- For Life non-participating business a single rate of 6.6% is applicable across all products.
- For Wealth+ Premier a positive lapse mad is applicable.
- Expenses have been inflated by one year.
- Additional reserves are held for closure to new business one year after valuation date scenario.
